RE: Fuel Plaza

Dear Ms. Cox:

As part of the United States Environmental Protection Agency (EPA) Region 7's responsibility for implementing the Underground Storage Tank (UST) regulations on Native American lands, we are required to conduct periodic inspections of tribal tanks. These inspections are most effective when a facility representative is present who is familiar with the leak detection method being used and who can provide the necessary records.

The EPA will conduct inspections of USTs during May through July 2007. The Fuel Plaza, located at 17223 W. 210th Street, Onawa, IA, has been scheduled for an inspection during the week of June 4, 2007. If this schedule is not convenient, please notify Alan Hancock at (913) 551-7647, at least 4 (four) working days prior to the scheduled date, so that an alternate date can be arranged.

For your information, a copy of the inspection form is enclosed, which lists those things that will be inspected. You will need to have leak detection records available for the last year for both tanks and piping, and a copy of your *Certification of Financial Responsibility* and any other records or repairs, maintenance, calibration, or testing of the tank systems. Keys to the dispensers should also be available, if appropriate.

We appreciate your cooperation. If you have any questions, please don't hesitate to contact Bjorn Brinkman at the phone number shown above.

Sincerely,

for Stanley Walker
Branch Chief
